

** BRAZIL. 15189.805 approx., May 3 at 0051, R. Inconfidência with wild sports coverage, what could that be? S9 and 0053 Inconfidência promos, 0055 timecheck for 9:55. On Apr 26 I had measured it on 15189.781 but misreported it as ``15187.81`` and no one corrected me! (Glenn Hauser, OK, WOR)

** CANADA. 2598 USB, May 4 at 0435 UT unreadable marine weather but French intonation; sounds the same on 2749 USB, but unknown if //. Per dxinfocentre.com/mb these are the final broadcasts of the night before a 3-hour break: 2598 from 0437 is VQB-22, Natashquan (Escoumins), 600 watts; and 2749 USB from 0437 is VCN Escoumins, also 600 watts. I guess that mean 2598 is relaying, or fed from, the 2749 station. In summer storm noise level such as around St Louis area, I was not really expecting to hear anything on these. Both are on the north shore of the maritime estuary of the St. Lawrence River in Québec (Glenn Hauser, OK, WOR)

** CHINA. 13530, May 3 at 1439, presumed CNR1 jammer, vs CODAR S7/S9. Aoki shows SOH at 2110-1550 on 13530 (Glenn Hauer, OK, WOR)

** CUBA. 9790, Apr 30 at 0411, S9 dead air, must be CRI relay scheduled 04-05 in Cantonese to N America west. Something's always wrong at RadioCuba (Glenn Hauser, OK, WOR)

** CUBA. 11760, Apr 30 at 0415, RHC S9+25/30 in Kriyol, yet after midnight in Haiti on EDT (Glenn Hauser, OK, WOR)

** CUBA [and non]. 9710, May 3 at 0035, heavy CCI between RHC song in English // 11760 and some other music, making a SAH a few Hz apart, totalling S9+30. Other would be CRI `Portuguese` music fill via Kashgar, EAST TURKISTAN, Commies vs Commies! At 0111 recheck 9710 is clear with RHC French // 11760 with hum and windhowl. SAWA (Glenn Hauser, OK, WOR)

** CUBA. 15140, Sun May 3 at 1929, RHC English, song, S9/+20 with windhowl, into Georgia SDR, // 11880, only S9/+10 but sounds much louder, almost overmodulated; 1929 Richard Richards segment ending, 1933 `Music with a Message`, hosted by ``Ed Newman`` (Glenn Hauser, OK, WOR)

** CUBA. 11880, May 3 at 2258, dead air from RHC, S9+10/20 into Georgia SDR (Glenn Hauser, OK, WOR)

** CUBA. 11880, May 4 at 2207, S9+10 of dead air from RHC (Glenn Hauser, OK, WOR)

** CUBA. 15140, May 5 at 0631, RHC S9+20 of deadair with windhowl. This is supposed to be a mid-day frequency, not mid-night! SAWA. Tony Pavick reported earlier: ``Looks like at 0000 UT R Habana Cuba has shaken the container of magic dice and out popped a good clear signal in English on -- 15140 khz! 9710 and 11760 are missing.

It would appear that RHC ran the regular slate of hourly language offerings with English starting at 2355, with Kriyol at 0055 and Portuguese at 0155. Portuguese aired at 0355 and English was back at 0455. As I did not monitor the entire evening, I don't know what happened between 0225 and 0355. Tony Pavick, Hope BC`` (Glenn Hauser, OK, WOR)

** CUBA. RHC, no signals on any known frequency, May 5 around 2210. RHC recovers 24 hours later, May 6 at 2213 with S9/+10 of dead air on 15140, and at 2221 S9+10 of dead air on 11880. Next step, maybe modulation? SAWA (Glenn Hauser, OK, WOR)

** CUBA [non]. 9490, UT Mon May 4 at 0238, R. República via FRANCE, with religious rather than political stuff! 0239 ID, S9+20/30 direct, still not jammed, almost as strong as SSOB 9455 WRMI; 0240 ``10 Minutos con Jesús`` (Glenn Hauser, OK, WOR)

** CZECHIA [non]. See USA: WRMI

** CHILE. 21315 USB, May 1 at 2210, CE7FPL in Puerto Montt talking about a red = net. QRZ.com: ``CE7FPL Chile flag Chile, OSCAR WERNER, Ruta V-155 Km 4, Llanquihue, X, Chile`` -- that's 24 km from Puerto Montt (Glenn Hauser, OK, WOR)

** CHILE. 28450 USB, May 1 at 2157, CE4JZ0. QRZ.com: ``CE4JZ0 Chile flag Chile, Federico Edo. "Kiko" Concha Traverso-, Avda. La Estancia N° 413, Comuna Machali, Sexta Región, Rancagua- 2910000, Chile`` Also some unID SS on 28435, 28510 (Glenn Hauser, OK, WOR)

** FRANCE. 13735-13740-13745, May 4 at 2209, S9 of DRM noise, RFI TDF scheduled this hour (Glenn Hauser, OK, WOR)

** ISRAEL [non]. See USA: WRMI

** JAPAN. 11800, May 6 at 1411, NHK World R Japan, only token English broadcast, M&W dialog, seems like language lesson, S3/S4 direct. While 11815 in Japanese is slightly stronger somehow, S4/S5, both beamed away from us. At 1434, 11800 still going, listed Burmese (Glenn Hauser, OK, WOR)

** KOREA NORTH. 15245.24, May 2 at 1350, NK music is JBA, on signature skewed frequency of VOK: this hour in English for Europe. No comparison to bigsig from CNR1 jammer on 15340 (Glenn Hauser, OK, WOR)

** KOREA SOUTH [non]. See USA: WRMI

** MADAGASCAR. 13790, Apr 30 at 0419, S9/+5 talk in ? language. EiBi shows BBC Somali M-F at 0400-0430. I always have a hard time recognizing Somali; are there obvious keywords? HFCC shows 250 kW at 0 degrees, which I think means non-direxional rather than due north (Glenn Hauser, OK, WOR)

** MADAGASCAR. 17530, Apr 30 at 0427, kid? solo with harmonious choral accompaniment, smax of Christianity, 0429-0430+ YL Chinese announcement -- yes, it's MWV in Chinese this hour, at 55 degrees nowhere near thisaway, but with T/E propagational advantage (Glenn Hauser, OK, WOR)

** MADAGASCAR. 21565, May 2 at 1347 JBA carrier direct is the OSOB. EiBi shows nothing but BBC in English to Indonesia at 12-14. Another success for near-antipodal Talata (Glenn Hauser, OK, WOR)

** MADAGASCAR. 9754.955 approx., May 4 at 0241, MWV Spanish, ``un momento de reflexión``, S7/S9 considerably off-frequency. At 0356 near ending, into Maryland SDR S6/S9, measured 9754.963 as accurately calibrated with WWV (Glenn Hauser, OK, WOR)

** MADAGASCAR [and non]. 17530, May 4 at 0428, English clip into Chinese, S9+10/20 direct, from WCB; the second SSOB, topped only by 17675 RNZP at S9+10/30 which is often much weaker (Glenn Hauser, OK, WOR)

** MALI. 5995, Apr 30 at 0601, ORTM not off the air, S7/S9 direct of repetitive music (Glenn Hauser, OK, WORLD OF RADIO 2345)

** MALI. 5995, May 6 at 0637, S7 African talk, so ORTM not off the air at the moment (Glenn Hauser, OK, WOR)

** MEXICO. 1060 kHz, May 4 at 0502, war-mongering NA playing here on XERDO Matamoros and also on 1570 XERF, right after `La Hora Nacional`, but could not hear a note of it anywhere else on full bandscan, altho some other XEs such as 1050 XEG were not playing it. Probably better luck at local midnight HCM = 06 UT (Glenn Hauser, OK, WOR)

** MEXICO. 730 kHz, May 4 at 0505, XEHB full ID claiming 50 mil watts, en ``la cadena Más Picuda`` - so it's a network? Not unusual for a Mexation to claim day power even if much less at night, but I bet it's really on day power to own 730 like it has been. I search the entire huge IRCA Mexican Log on Picuda and get only a few other hits: 1170 XERT Reynosa; 840 XETEX Tepic, Nayarit + 93.7 plus XEHB's own FM 104.7, Hidalgo del Parral, Chihuahua2 (Glenn Hauser, OK, WOR)

** NORTH AMERICA. 6950 USB, May 1 at 2221 wild percussion partially demodulated by fifth harmonic of KCRC (AM) 1390 Enid. At 2233* a local power failure hits home, not KCRC. Surprise, no storming now. I don't have battery backup ready to go on the NRD-545, so hook up the DX-398 to longwire and keep listening to more pirate music; 2324 SSTV, outro 2325 as ``one of my old selfies``, more music. Many reports here as Thunder Chicken Radio with visuals:
<https://www.hfunderground.com/board/index.php/topic,162804.0.html>
Power outage turned out to last a full hectominute until finally back on at *2413 (Glenn Hauser, OK, WOR)

** NORTH AMERICA. 9820 USB, April 30 at 0410 S9+20 of pirate music, hard to believe only a pirate, but within seconds it stops, after saying something like ``thanks for tuning in``. It's Mix Radio International, which has been showing up on lots of frequencies beyond the Pirate Band. Tony Pavick had tipped this at 0233 on the WOR iog: ``Mix Radio International is up and perking on 9820 USB tonite``. No sign of Brasil 9818.6v lately, and Rudolf Grimm, SP, had reported Apr 30 to HCDX: ``9820 kHz: Radio Nove de Julho, São Paulo SP - April 26 at 1513. No signal`` (Glenn Hauser, OK, WORLD OF RADIO 2345)

** NORTH AMERICA. Bunch of Saturday evening pirates, as usual with music mostly unrecognizable by me and I am not into shazaaming or anything else no matter how time-consuming, but refer to HFUnderground monitors:

6980 USB? May 3 at 0057 JBA music, drumming. Nothing in HFU, but after 0200 on 6977.7, WPIG, Voice of the Trough:
<https://www.hfunderground.com/board/index.php/topic,162921.0.html>

6950 USB, May 3 at 0058, pirate music S9+10; many logs as unID:
<https://www.hfunderground.com/board/index.php/topic,162906.0.html>

6940 USB, May 3 at 0058, pirate music, off at 0102? more unID logs:
<https://www.hfunderground.com/board/index.php/topic,162905.0.html>

6925 AM?, May 3 at 0059, pirate music. Apparently WTF Radio Worldwide, but reported as on AM:
<https://www.hfunderground.com/board/index.php/topic,162898.15.html>

6870 USB, May 3 at 0101, pirate music S9+20; also at 0156 S9. Mix Radio International per:
<https://www.hfunderground.com/board/index.php/topic,162909.0.html>

6935 AM, May 3 at 0157, pirate music S9, Liquid Radio, per:
<https://www.hfunderground.com/board/index.php/topic,162918.0.html>

6890 USB, May 3 at 0158, pirate talk, laughing. NO HFU logs here.

Might have been peskies but aren't they LSB? (Glenn Hauser, OK, WOR)

** OKLAHOMA. 1390, Apr 30 at 0659 UT, dead air from local KCRC Enid; I quickly check // 1640 KZLS, but by now an ID for ``WWLS FM, The Sports Animal``. That's the wrong {98.1} ID normally aired on WKY 930 and KWPN 640. NRC AM Log shows those are with ESPN, while KCRC/KZLS are with Fox Sports Radio. Is it possible, or unusual for any0kie to be affiliated with both major national sports nets? (Glenn Hauser, Enid, WOR)

** OKLAHOMA. 1680 kHz, May 6 circa 2030 UT, Virtual DJ Radio via lowpower pirate in Enid, peaking circa crossroad of US 81 and US 412, for the record, is still active, playing ``Ghost Riders in the Sky``. I have never located its exact source; would require a lot of footwork (Glenn Hauser, OK, WOR)

** OKLAHOMA [and non]. 5140 USB, May 6 at 1400, no signals yet for Wednesday net. Could be on 7477 instead? Nothing there either. *1402.7 starts 5140 late with alternate NCS WPFY721, Seminole EOC. Does not give own name but later addressed as Ernie. Does not go thru the counting routine etc., that Breanna does - they go by different scripts. Oklahoma Operations Secure Test Net. Roll call of each one twice unless answered first.

WQYW443, Beckham County;
WQZT582, Broken Arrow;
WQSY836, Byng;
WNPV700, Durant, Bryan County; Bill answers, L&C, always strongest here;
WQUG374, Leflore County;
WQYW883, Moore EOC; Gaylon? answers, JBA;
WNUW216, OKC Mac?;
WNUW215, Ponca City;
KNGR728, Pontotoc County;
WSHM692, State of Oklahoma [call of alt. NCS];
WNBW839, Stillwater, Joe ans;
WNCH624, Tulsa;
Any others, in-state? No.
WNBE830, Missouri State EOC, Jefferson City; Corey ans, JBA;
WPES740, Camden County [MO];
1409 any others? summarizes four OK and one MO checked-in. Till next week at 9 am local, 1410 clear (Glenn Hauser, OK, WOR)

** OKLAHOMA. 6950, May 5 at 2212, 5 x 1390 harmonic of KCRC Enid, intermittently hitting S9+20/30 on two different antennas, much stronger than usual JBA here a couple miles from site. In such a situation might be DXable, sports format unlikely to be mistaken for genuine pirate. Also always audible on 2980, 4170, JBA 5560. 6950 behaving the same 24 hours later on May 6 at 2223, S9+20 peaks (Glenn Hauser, Enid, WOR)

** ROMANIA. 11820, UT Monday May 4 at 0229 direct, RRI Spanish S9/+10 SSOB, giving schedule of RCM = WEWN on 12050 as 00-06 & 14-24, and ``hasta el próximo mes``, so apparently a monthly DX segment, within mailbag show, 0232 acknowledging something from Barranquilla, Colombia. 0235 RRI ID, and ``Club de Oyentes`` de RRI, with Victoria Sepciu (Glenn Hauser, OK, WOR)

** ROMANIA. 13580, May 6 at 2218, weak S9, undermodulated? in English. EiBi shows it's RRI Tsiganeshti to Far East this hour. BTW, the T has a cedilla under it making it sound TS, and the S too making it SH. Everyone else seems to ignore this, misspelling it simply TIGANESTI (Glenn Hauser, OK, WOR)

** SLOVAKIA [non]. See USA: WRMI

** SPAIN. 17715, April 30 at 1913 and 2209 chex, for the third day in a row nothing but dead air on REE's South American frequency, whenever checked during its entire span, while 15500 for North America remains VG and 15520 for ME also modulating, while 15390 for Africa remains absent. Someone's not paying attention at Noblejas (Glenn Hauser, OK, WORLD OF RADIO 2345)

** SPAIN. Re 17715 three days of dead air and other REE anomalies, Ken Zichi replies:

``Indeed, and last season when 9690 was absent for months at a time they even tried to 'gas-light' me claiming it WAS on the air and people were reporting it. When I 'called them out' and said that someone at Noblejas was not being straight with them, it got suspiciously quiet. I keep coming back to the 'truism': "If you don't broadcast, people won't listen" I mean, isn't that obvious? 73 //Ken Z`

Make that *four* days: still DA May 1 at 2033 into Maryland SDR, S6/S7, while 15500 & 15520 are modulating normally (Glenn Hauser, WOR)

** SPAIN. 15520, May 1 at 2202, REE S9+20 with navigational warning in English, merely a clip during Spanish ``Así suenan siete días en Radio Exterior de España`` as if it's Friday there must be no English. Also S9+20/30 on 15500, and S9/+10 and noisy deadair on 17715, no signal on 15390. The other 15s are the SS0B (Glenn Hauser, OK, WOR)

** SPAIN. 17715, May 2 at 1529, fifth day of dead air on this REE for S America, S7/9+10 into Georgia SDR. And still at 1917, S9+10/25 of silence in Spanish (Glenn Hauser, OK, WOR)

** SPAIN. 17715, May 3 at 1504, sixth! day of dead air from REE, S9/+15 into Georgia SDR; 15500 is S7/9 with silly ballgame, 15520 JBA and 15390 still AWOL. At 1928 into Georgia SDR, 17715 S9+10/15 of deadair. Something's amiss in Madrid, not paying attention to their last link to listeners in Noblejas (Glenn Hauser, OK, WOR)

** SPAIN. 17715, May 4 at 2159, S9+20 of dead air on the 7th day in a row from REE to South America, S9+20 direct; 15500 & 15520 are modulating OK with live air (Glenn Hauser, OK, WOR)

** SPAIN. 17715, May 5 at 1920, REE is finally modulating! After a full week of dead air. S6/8 into Maryland SDR, during `Tablero Deportivo`, wasting a huge amount of modulation on silly ballgames. 15500 & 15520 still on as usual (Glenn Hauser, OK, WOR)

** SPAIN. 17715 S9+10 // 15520 S9/+20 // 15500 S9+30 and still no signal on 15390, May 6 at 2200, REE with timesignal and Spanish PSA about how expats may vote in the May 17 Andalucía election; 2201 open token English on Wednesdays only, ``live`` [not] from studio in Madrid radio house. Daniel of the extremely heavy accent and Alba lighter accent at breakneck pace to make the most of only one hour a week, with continuous irrelevant musical background. Preview some topix: difficulties of journalism in East Africa; National Gallery in London to feature Velázquez and two other XVII century Spanish artists. 2203 news summary, leading with the hantavirus cruise ship which is heading from Cabo Verde to Tenerife in Canarias, as Spanish government says it's their moral responsibility to handle the situation, unlike the Canary governor(?) who does not welcome them; and the campaign in Andalucía... (Glenn Hauser, OK, WOR)

** TAIWAN [non]. See USA: WRMI

** TURKEY. 9770, April 30 at 0412, S7/S9 rock music. Nevertheless, per EiBi it's VOT in Turkish at 04-06 to Europe, and HFCC shows 300 kW,

310 degrees so also USward. At 0600 switches to 13635 only 250 kW at same azimuth (Glenn Hauser, OK, WOR)

** TURKEY. 11785, April 30 at 2217, no VOT signal in English into Georgia SDR, like yesterday. Something's always erroneous at Emirler (Glenn Hauser, OK, WORLD OF RADIO 2345)

** TURKEY. 11785, May 1 at 2159, VOT not off the air, but undermodulated, S9+10 direct, s/on as if it's 1230 on 17620; something's awry at Ankara. And with heavy splash from 11780 Brasil, while 11790, 11795 and 11800 continue to be invitingly open (Glenn Hauser, OK, WOR)

** TURKEY. 11785.003+, May 2 at 2205, VOT English not off the air, S9+20/30 into UTwente, unchecked direct but no doubt quite inferior (Glenn Hauser, OK, WOR)

** TURKEY. 11660.019+, Sun May 3 at 1643, VOT English, S9+10/20 backwards into UTwente, after news and music, now ``always-by-your-side`` promo; 1644 `Letterbox` with Cemre. Weather improving, stuff happening, likes to go somewhere. Two new {?} locations heard from this week: Peru, Poland. 1) Carlos G. Moscoso, Cuzco, Peru, heard 7215 {sic, not corrected, she doesn't realize it's supposed to be 7275? Will they QSL wrong frequency?} at 0315. ``When propagation is bad, we blame the sun,`` she says. 2) Ivan Lebedev, northern suburb of St. Pete, Russia. 3) Paul Turkov?, Lancashire, 6 reports from Dec to Apr, using 75-year-old radio. 4) Miss Leila? Bell, UKOGBANI. 5) Rajal?/Rashu?, Andhra Pradesh, India. 6) Najradin?, listeners club, W Bengal, India. 7) Marek? Kisz?, SE Poland, only one sending a song list this week. 8) Mr Tedescu?, Transylvania, Romania, listened to Spanish. 9) Jayanta Chakroborty, India, will send some stamps along with QSL. 10) Invitation to a contest from Dan Cummings?, manager, WWDXC during FIFA world cup in June, detailed rules for logging and reporting countries participating, entry fee 5 Euro. 1707, that's all, theme (Glenn Hauser, OK, WOR)

** TURKEY. 11785, May 4 at 2158, no signal direct from VOT English, nor later in hour nor on possible accidental alternate 9875. Something's always erroneous at Emirler (Glenn Hauser, OK, WOR)

** TURKEY. 11785, May 5 at 2158, VOT IS & ID, not off the air, S9+10/20 stronger than usual direct and almost equal 11780 Brasil. Again May 6 at 2158, slightly weaker S9/+10 (Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2344 monitoring: ``Richard Lemke, St. Albert, Alberta, Canada, From the desk of Richard's listening Post, Radio: JRC NRD-535 HF, 1995, (31 years of service), Antenna: random long wires in the trees, WRMI, World of Radio #2344: 15770 kHz, 2230, 2259, World of Radio #2344, CIDX mentioned, [Sat] 9455 kHz, 2330-2359, ID heard at 2359, April 26 UTC [Sun] 9395 kHz, 0030-0059, (45433), S5 to S7, April 29 UTC [Wed] (Lemke, Richard -AB) 73's, Richard, April 30, 2026``

Not confirmed UT Thursday April 20 at 0130 on WRMI 5010; rather `Frecuencia al Dia`, as expected from websked; not clear why the change, as we each have multiple airings, but this was my only one on 5010 southward beam.

Confirmed Thursday April 30 at 1630 on SW Radio Gold, Germany, 6160.000+, S9/+10 into UTwente and this time RTTYditty on plus side is JBA. And 3975.000+, S9+5 which now has a het on the plus side only.

Also confirmed Thursday April 30 at 2330 on WRMI 5950, S6/S9 JBA with ECSS direct.

WORLD OF RADIO 2345 contents: Australia, Bolivia, Brazil, (Bulgaria), (Canada non), Colombia, Cuba and non, Czechia, Finland, France, Germany, Iran non, Israel non, Japan, Korea South, (Madagascar), Mali, Mexico, Monaco non, Netherlands, North America, (Oman), Perú, Spain, (Tajikistan), Tibet non, Turkey, USA, (Uzbekistan), unID 15244.5 NBFM; propagation outlook - (countries mentioned along with others not in order)

Many thanks for a very generous contribution via PayPal to woradio at yahoo.com from Chris Campbell, Columbus OH, ``I always look forward to Thursday evenings each week to catch the new WOR.``

One may also contribute by MO or check on a US bank to
Glenn Hauser, PO Box 1684, Enid OK 73702 (Glenn Hauser, OK, WOR)

** U S A. WORLD OF RADIO 2345 monitoring: missed checking first SWBC, as I overslept, Fri May 1 at 1300 on WRMI 15770; but probably, altho a few weeks ago it was not aired. Anyone hear it?

Confirmed Friday May 1 at 2030 on IRRS SW via AM Italia, 1322.995, S9+10 into nearby Noale SDR. Next:

2200 UT Friday WRMI 9955 to SSE [also web-, phonecast];
2230 UT Friday SW Radio, Germany 3975;
0300 UT Saturday WTWW 5085 [irregular];
0930 UT Saturday WRMI 7570 to WNW;
1430 UT Saturday SW Radio, Germany 6160 {not May 2};
1530 UT Saturday WRMI 9955 to SSE [also web-, phonecast];
1600 UT Saturday WRN via WRMI 9395 to NNW;
1600 UT Saturday WRN via WRMI 7730 to NE;
1930vUT Saturday WA0RCR 1860-AM [1900/2100];
1930 UT Saturday SW Radio, Germany 3975 6160;
1930 UT Saturday WRN via WRMI 9395 to NNW;
2100 UT Saturday WRMI 9395 to NNW;
2230 UT Saturday WRMI 17790 to SSE;
2230 UT Saturday WRMI 15770 to NE;
0230vUT Sunday WA0RCR 1860-AM [nominal 0315; as late as 0400];
0630 UT Sunday WRN via WRMI 5850 to NW;
0630 UT Sunday WRN via WRMI 7730 to NE;
0630 UT Sunday WRN via WRMI 7780 to SW;
0930 UT Sunday IRRS SW 9510 via Romania;

0030 UT Wednesday WRMI 9395 to NNW;
1930 UT Wednesday SW Radio, Germany 3975, 6160;
2100 UT Wednesday WBCQ 7490v to WSW;
2330 UT Wednesday WRMI 9395 to NNW;
1630 UT Thursday SW Radio, Germany 3975 & 6160;
2330 UT Thursday WRMI 5950 to NNW.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2345 monitoring: Also confirmed Friday May 1 at 2200 on WRMI 9955, S9/+10 undermodulated as usual on this outlet.

Missed checking 2230 May 1 on SW Radio, Germany, 3975 due to power outage so no computer operating, no remote tuning.

Also confirmed UT Saturday May 2 at 0305-0334 on WTWW 5085, S9+10/20 into Maryland SDR. WTWW was on air more than an hour earlier with T2P which seems to happen only on Friday evenings. A rough start: 0300 ``The Ministry of...`` World of Radio, but cut to dead air. 0303 another ID. 0305 restart WOR and plays to conclusion.

Confirmed not the Saturday 1430 on SW Radio Gold, Germany, 6160, since day-by-day skeds show pre-emption on May 2 and probably future first Saturdays for Texas Radio SW; music heard at 1445 check into UTwente.
Next:

1530 UT Saturday WRMI 9955 to SSE [also web-, phonecast];
 1600 UT Saturday WRN via WRMI 9395 to NNW;

 2330 UT Wednesday WRMI 9395 to NNW;
 1630 UT Thursday SW Radio, Germany 3975 & 6160;
 2330 UT Thursday WRMI 5950 to NNW.
 (Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2345 monitoring: confirmed Saturday May 2 at 1530 on WRMI 9955, inaudible at Bonaire where it's presumably aimed, but S9+5/20 backwards into Georgia remote.

Also confirmed Saturday May 2 at 1600 on WRN via WRMI 9395, S9+12/20 into Georgia SDR.

Also confirmed Saturday May 2 at 1600 on WRN via WRMI 7730, JBA into Georgia, but S9+5/22 into Melbourne FL SDR, groundwave?

Also confirmed Saturday May 2 at 1930 on SW Radio Gold, Germany, 6160.001, S9+5/15 into UTwente, bandwidth <8 kHz to escape RTTYditty on plus side; and 3975.001+, S9+5/10. Also storm crashes; indeed Blitzortung shows lightning concentrated over the BeNeLux. ¿How long since we've heard that name? The treaty/organization apparently still exist.

Also confirmed Saturday May 2 at 1930 on WRN via WRMI 9395, S5/S9 into Georgia SDR.

Not confirmed Sat May 2 between 1925 & 2005 on WA0RCR, 1860 AM, M0, inaudible in daytime noise at all remotes checked in M0, IL.

Confirmed Saturday May 2 at 2000 on WRN Europe stream.

Confirmed Saturday May 2 at 2100 on WRMI 9395, S7/S9 into Georgia SDR.

Confirmed Saturday May 2 at 2245 the 2230 on WRMI 15770, S9+10/15 into Maryland SDR.

Confirmed Saturday May 2 at 2245 the 2230 on WRMI 17790, S9/+10 into Brasila SDR, only a trace into Maryland.

Confirmed Saturday May 2 at 2348 the 2330 on IRRS/IPAR/NEXUS/IBA webcast only.

Confirmed UT Sunday May 3 from 0333 on WA0RCR, 1860 AM, M0, S9+5/20 way off into Georgia SDR; with QRhaM from QSO about 1858.2 LSB.

Confirmed Sunday May 3 at 0630 on WRMI's direct: 5850 S9+40/50; 7730 S9 undermodulated; 7780 S9/+25. Otherstuff on 7570, 9395, 15770.

Mizzzed checking Sun May 3 at 0930 on 9510, 1030 on 9395, 7780: anyone hear them?

Also confirmed Sunday May 3 at 1900 on IRRS SW via AM Italia, 1322.995, S9+12 into nearby Noale SDR; following s/off announcement of 7290. Next:

2000 UT Sunday IRRS SW via AM Italia 1323;
2130 UT Sunday SW Radio, Germany 3975 6160;
2330 UT Sunday WRMI 9455 to NW;
0030 UT Monday WRMI 7780 to SW;
1930 UT Monday SW Radio, Germany 3975 6160;
0330 UT Tuesday WRMI 7780 to SW;
1300 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
1400 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
2000 UT Tuesday IRRS SW via AM Italia 1323;
2230 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
2330 UT Tuesday SW Radio, Germany 3975;
0030 UT Wednesday WRMI 9395 to NNW;
1930 UT Wednesday SW Radio, Germany 3975, 6160;
2100 UT Wednesday WBCQ 7490v to WSW;
2330 UT Wednesday WRMI 9395 to NNW;
1630 UT Thursday SW Radio, Germany 3975 & 6160;
2330 UT Thursday WRMI 5950 to NNW.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2345 monitoring: confirmed Sunday May 3 at 2000 on IRRS SW via AM Italia, 1322.995, S9+10 into nearby Noale SDR.

Also confirmed Sunday May 3 at 2026 the 2000 on WRN Europe stream.

Also confirmed Sunday May 3 at 2155 the 2130 on SW Radio Gold, Germany, 6160.001+, S9+5/15 into UTwente; and 3975.001+, S9/+10.

Confirmed not Sunday May 3 at 2300 on WRMI 9395, as expected, replaced by something else.

Confirmed Sunday May 3 at 2330 on WRMI 9455, S9+10/20 into Knoxville SDR.

Confirmed UT Monday May 4 at 0030 on WRMI 7780, S7/9+10 into S Texas SDR.

Confirmed UT Monday May 4 from 0259.5 on Area 51. S9+10 into Maryland SDR on WBCQ 5130 -90 Hz = 5129.91, after `Lost Discs` show but I am chopped off during opening for inflexible WBCQ s/off at 0300; continuing on A51 webcast. Next:

1930 UT Monday SW Radio, Germany 3975 6160;

0330 UT Tuesday WRMI 7780 to SW;
1300 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
1400 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
2000 UT Tuesday IRRS SW via AM Italia 1323;
2230 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
2330 UT Tuesday SW Radio, Germany 3975;
0030 UT Wednesday WRMI 9395 to NNW;
1930 UT Wednesday SW Radio, Germany 3975, 6160;
2100 UT Wednesday WBCQ 7490v to WSW;
2330 UT Wednesday WRMI 9395 to NNW;
1630 UT Thursday SW Radio, Germany 3975 & 6160;
2330 UT Thursday WRMI 5950 to NNW.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2345 monitoring: confirmed Monday
May 4 at 1930 on SW Radio Gold, Germany, 6160.000 S9/+10 and 3975.001-
58/9 into UTwente.

Also confirmed UT Tuesday May 5 at 0330 on WRMI 5850, S9. Was
expecting it on usual 7780, but `Freedom Synergy Radio` from 0300
continued there past 0330, so I checked what had been // for it, 5850,
and there I am at S9! Remains to be heard whether this be a reliable
permanent change.

Also confirmed Tuesday May 5 at 1300 on WRMI 9955, S5/S7 direct.

Also confirmed Tuesday May 5 at 1413 the 1400 on WRMI 9955, JBA S3/S6
with ECSS. Next:

2000 UT Tuesday IRRS SW via AM Italia 1323;
2230 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
2330 UT Tuesday SW Radio, Germany 3975;
0030 UT Wednesday WRMI 9395 to NNW;
1930 UT Wednesday SW Radio, Germany 3975, 6160;
2100 UT Wednesday WBCQ 7490v to WSW;
2330 UT Wednesday WRMI 9395 to NNW;
1630 UT Thursday SW Radio, Germany 3975 & 6160;
2330 UT Thursday WRMI 5950 to NNW.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2345 monitoring: ``Richard Lemke,
St. Albert, Alberta, Canada, From the desk of Richard's listening
Post, Radio: JRC NRD-535 HF, 1995, (31 years of service), Antenna:
random long wires in the trees, WRMI, World of Radio #2345:
15770 kHz, 2230, 2259, World of Radio #2345, May 2 UTC [Sat]
9455 kHz, 2330-2359, ID heard at 2359, May 3 UTC [Sun]
9395 kHz, 0030-0059, (45433), S9, May 6 UTC [Wed]
(Lemke, Richard -AB) 73's, Richard, May 6, 2026 8:19 am``

Confirmed Tuesday May 5 at 2000 on IRRS SW via AM Italia, 1322.995,
S9+10 into nearby Noale SDR.

Confirmed Tuesday May 5 at 2254 the 2230 on WRMI 9955, S9+10/25 into
Georgia SDR.

Also confirmed Tuesday May 5 at 2330 on SW Radio Gold, Germany,
3975.002-, S9/+10 into UTwente.

Also confirmed UT Wednesday May 6 at 0030 on WRMI 9395, S9/+27 into
Georgia SDR after Blues Radio International.

Also confirmed Wednesday May 6 at 1930 on SW Radio Gold, Germany,
6160.001- S9+5/15 and 3975.001- S9/+15 into UTwente.

Also confirmed Wednesday May 6 at 2100 on WBCQ 7490 -74 Hz = 7489.926,

S9/+5 into Maryland SDR.

Also confirmed Wednesday May 6 at 2330 on WRMI 9395, S7/9+5 into Maryland SDR. Next:

1630 UT Thursday SW Radio, Germany 3975 & 6160;
2330 UT Thursday WRMI 5950 to NNW.

Many thanks for a very generous contribution via PayPal to woradio at yahoo.com from Chris Campbell, Columbus OH, ``I always look forward to Thursday evenings each week to catch the new WOR.``

One may also contribute by MO or check on a US bank to
Glenn Hauser, PO Box 1684, Enid OK 73702 (Glenn Hauser, OK, WOR)

** U S A. 7490, May 2 at 0000, WBCQ `AAAWWW`, opening with talkovers:
``hi ho, hi ho`` and ``tickling the grids`` so it's a rerun of March
14 & April 18, q.v., never mind (Glenn Hauser, OK, WOR)

** U S A. 7489.9, UT Monday May 4 at 0246, WBCQ S9/+25 direct, someone
interviewing Al Weiner, program title ``Shortwave Listening --``
something. 0249 it's ``The Tech Prepper``, P O Box 7606, Cave Creek AZ
85327 [sounded like he said Hayes Creek till I uplooked ZIP code].
Then a website thetechprepper.geocities.org ! GC has been gone since
2009y! Is this a very old recording? Allan did sound a bit younger.
0251 host tells story of being stranded in southern California, how he
got into ham radio in 2020y with COVID; and has been on YouTube since
May 5, 2020, anniversary imminent. Seemed about to wrap up by 0300. I
have a look at current website that I find:
<https://www.thetechprepper.com/about>
which is obviously a business, but no info on guy's name or Cave
Creek.

The thing is, nothing about this on the WBCQ program schedule, which
is never up-to-date. Shown during these hours on UT Monday with times
misabeled EST instead of EDT:

7490 Mo 0100 0230 UTC Su 09:00PM 10:30PM EST Plain Old Doug Show
7490 Mo 0130 0230 UTC Su 09:30PM 10:30PM EST The Warning with Tony
Lamb
7490 Mo 0230 0400 UTC Su 10:30PM 12:00AM EST The Overcomer Ministry

And no `Tech Prepper` anywhere else on WBCQ skeds. Note above how the
first two entries before 0230 are mutually exclusive! (Glenn Hauser,
OK, WOR) {or monthly, or alternate weeks? why not specify?}

** U S A. 17790, May 4 at 2203, WRMI, S9+20 of dead air direct, and
also 15770, S9+20 of dead air, both instead of R Taiwan Internacional
in Spanish. Meanwhile, 9955 & 9395 are JBA with modulation. At 2217,
15 & 17 still DA. FINALLY, at 2246 when I am running Maryland remote,
German audio pops on 15770 and also 17790. Scheduled at this time is
R. Prague International, but NOT specified as German!! So references
assume it is English. At 2256 an unfamiliar very brief IS? repeats
over and over every few seconds.

At 2300 they have split: 15770 with KBS World Radio in English, 17790
something in French translating from Slavic at 2324. At 2331, 15770
with Israel Radio in English; informal American-accented news, but
chopped off at 2359 for WRN ID, and that's chopped off for WRMI
Okeechobee Ocean ID; and from 0000 May 5, RSI in Slovak. KBS and
Israel at 23-24 are as in WRN schedule. When WRMI is relaying some
foreign broadcaster in English, it *may* be via WRN. If in other
languages, even same station, not via WRN, I think (Glenn Hauser, OK,
WOR)

** U S A. 17790, May 5 at 1450, after open carrier, 10-minute runup to ``top of hour`` programming, WRMI IS and IDs, S9 and the SS0B, would be the OS0B if not for a JBA carrier on 17700 from TWR MADAGASCAR in S Asian languages (Glenn Hauser, OK, WOR)

** U S A. 17790, May 6 at 2206, a problem with this WRMI transmitter; S9 but somewhat suptorted and carrier wobbling for RTI in Spanish, and hardly above the noise level. While // 15770 is S9+20/30 and VG (Glenn Hauser, OK, WOR)

** U S A. 4840, May 4 at 0637, this WWCW is S9+35/50 of dead air except for hi-pitched squeal. The squeal seems to infest most or all WWCW frequencies, e.g. 5935 S9+55/60 with PMS at 0638; 13845 S9+5 SS0B at 1448; 7490 S9+20 at 1454 May 4. Guess they need better audio filtering (Glenn Hauser, OK, WOR)

** U S A. 17525, May 1 at 2206, WMLK is JBA, only S9 with DEJOM or his heir, instead of usual blast. God won't get'em for working on The Sabbath until 2401. OTOH, 17790 WRMI attains S9+20/30 with Taiwan in Spanish (Glenn Hauser, OK, WOR)

** U S A. 9265, May 3 at 0040, no signal at all from WINB. There appears to be a gap in program schedule for Saturday night -- Geez, they still think they are on EST instead of EDT; where's Hans Johnson when we need him? O, he's no longer listed in WRTH as sales manager: 06:15P / Sat-2315...Old Fashioned Missionary Baptist Ch. 09:00P / Sun-0200...FKB Radio Sermon Time
Program end times are never shown, but 2:45 is awfully long for one, and the same OFMBC on Sunday morning lasts only a semisesquihour before something else. So maybe they axually turn the transmitter off for a while? Still off however at 0250 not into Georgia (Glenn Hauser, OK, WOR)

** U S A. 900 kHz, Apr 30 at 0646 UT, music from the ``Great American Songbook, WKDA`` ID, Lebanon TN. This dominates 900 here at night, at least on my E/W longwire, no sign of XEW. This is quite contrary to radio-locator.com listing as ``Radio Luz 900 AM`` = Spanish! and 5000/136 watts, non-direxional but `2 modes`, whatever that mean. Coverage maps are totally circular from site just east of Lebanon. NRC AM Log as of last summer shows format as C&W/NOS, not SS (Glenn Hauser, OK, WOR)

** U S A. 910 kHz, May 2 at 0652 UT, South Dakota weather and Brookings ads, therefore the station with address in that town tho licensed to Volga: KJJQ, U4 500/500 watts. Day pattern goes NNE/SSW, slightly more to the SSW; night pattern with a notch to the SW, but major lobe closer to south like us. Last heard Feb 24. The SW notch would be to protect ND KPOF Denver, not Wichita. The towns are in E central SD, not far from MN frontier. Part of a 5-station group with another AM and three FM's (Glenn Hauser, OK, WOR)

** U S A. 990, May 4 at 0454 UT, adstring, ``The Mighty 9-90, K-wam``, anti-woke program promo, i.e. KWAM Memphis TN. Was looking for the sports/betting station believed to be WNML Knoxville, which KWAM, halfway between east/west would block. But see unID 990 (Glenn Hauser, OK, WOR)

** U S A. 1230 kHz, Apr 30 at 0705 UT, weather but no clue to location, and ID sounds like KXJB? on 98.9 FM. The WTFDA FM Database is offline as I want to search for a match, so I look thru all 150 US stations on 1230 in the NRC AM Log, no // 98.9 shown until almost the end, WXCW Wausau WI, with W255DN, TLK format. Later WTFDA FMDB is back, and makes exactly the same single hit. So maybe. WBBZ Ponca City OK is far enough not to own 1230 at night, but close enough usually to be in the mix (Glenn Hauser, OK, WOR)

``Possibly KFJB? Their translator is on 93.9. 73 Tim Hall``

{some AI butts in with this along with above email: ``Suggested reply: Tim, Good point on KFJB. I'll check that translator frequency. Glenn`` GO AWAY! I don't want or need your suggestions!!! -- the real Glenn}

KFJB indeed is a close fuzzy match to the call I heard; however don't see how I could have taken 93.9 for 98.9. Possibly in the graveyard pileup these were parts of two different stations. KFJB is in Marshalltown IA.

1230, I try again May 1 at 0640 UT: Iowa is mentioned and ad? for Heartland something, State? Broad search does find some connexions between Marshalltown and Heartland entities, but that probably applies to many other locations. Then C2CAM which would not be KFJB, listed on Red Eye Radio instead (Glenn Hauser, OK, WOR)

** U S A. Re my 1420 log: ``Hi Glenn, KTOE is the best choice; You'll find both of KTOE's translators listed in the Grp= Information Radio. Doing some research, I found that KTOE has dropped one of their xlaters so that group will be gone in the next LOG.

KWBF is interesting, the FCC lists two licenses for K254CI in the fmq with the same Facility ID, one on 98.3 and one on 98.7; the LOG database is driven by the FCC data so looks like it grabbed the first translator with the Facility ID. Email is off to the keeper of the fmq to see if they can rectify the situation. 73, Wayne Heinen N0POH, AM Radio Logbook Editor`` (via Glenn Hauser, WOR)

** U S A. 1700 kHz, May 4 at 0446 UT, ``Jalapeño Radio 95.7 FM`` ID in English, Mexmx; 0459 full ID as KKLF, 1700 and K239DA, Jalapeño Radio Network, Richardson-Dallas TX. That's a mere 60-watt translator wagging this dog (Glenn Hauser, OK, WOR)

** VANUATU. 7260, May 4 at 0633, no signal from RV, not even a JBA carrier. Had been missing a few days. I can normally detect it this late whenever on. Nor on 9960. But Manuel Méndez, Lugo, Spain was hearing 7260 at 0447-0503 after notifying them of outage; if direct, that's a notable long-path catch for him. Also Ron Howard had 7260 to NZ remote at 0450-0506, but by 0615 were on new 5040. Not in WRTH 2026, but 5040 has been used before and current EiBi shows it at 1830-2000 (Glenn Hauser, OK, WOR)

** VANUATU. 5040, May 5 at 0633, JBA carrier, no doubt R. Vanuatu, ex-7260 or 9960. Ron Howard had reported 5040 reactivated the night before. Not yet a JBA carrier on 5020 from Solomon Islands, next to Cuba (Glenn Hauser, OK, WOR)

** VENEZUELA. 4940, May 3 at 0707, Estación 4940 is absent again (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 810.53, Apr 30 at 0646 UT, JBA carrier hetting WHB 810, source yet to be discovered (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 990, May 3 at 0642 UT, mention Las Vegas; 0643 ``Sports Betting Network``. There is no NV on 990, but SBN is based there, a.k.a. VSiN = Vegas Stats & Information. No such network shown for any 990 station in NRC AM Log, but only a few have sports format. Prime suspect is WNML `Sports aNiMaL`, Knoxville TN, 10/10 kW U2, night pattern somewhat notched to west, so maybe on ND day pattern. Its sked shows merely `Westwood One Sports` all-night. Beyond that I can't get a definite match; other sports on 990 are KTMS CA, KIKI HI, WTIG OH, all of them far less likely to be heard here. SBN/VSiN seems mainly online/podcasting; can't find a simple radio affiliate list on their

websites (Glenn Hauser, OK, WOR)

Tim Hall replies:

``One possibility is KRM0. Out-of-date program schedule on their web site still shows the defunct Sportsmap radio network:

<http://www.radiotalon.com/krmo-programs>

image.png

Wikipedia entry for Sportsmap radio network says their affiliates transferred to VSiN after the demise of Sportsmap:

<https://en.wikipedia.org/wiki/SportsMap>

On February 22, 2024, as part of cuts being made at Gow Media, the company announced the network would shut down and have its programming and remaining affiliates being managed by the Vegas Stats & Information Network full-time.[6]

HTH, Tim`` Hall.

YID. KRM0 is U1 2500/47 Cassville MO, address in Monett, format was C&W/Farm. Close but lowpower if really 47 watts (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 1610 kHz, May 3 at 0657 UT, S9+20/25 of dead air, or JBM? Likely CHHA Toronto, which otherwise blox CHRN Montreal to here (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 7260, May 4 at 2158, JBA carrier direct. Only thing scheduled now is CRI `Portuguese` = fill music via Urumqi, EAST TURKISTAN. Rather early before LSS for that, but more likely than Vanuatu; or maybe HAM carrier but seems constant (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 9936.0, May 5 at 0634, S6 of open carrier with JBA clix, another of the -6 mysteries, like 9236.0 et al. elsewhen. What is this? (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 15153.1 LSB, May 2 at 1920, 2-way in Spanish INTURDERS -- er, INTRUDERS, discussing trabajo. On slightly different frequencies from their sounds (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 15180.51, May 5 at 2202, weak carrier, seems open, and fading so unlikely local. But no broadcaster listed on 15180 now in Aoki, EiBi or HFCC. At 2303 into Georgia SDR, an inaudible and invisible carrier at 15180 synched at +240v Hz (Glenn Hauser, OK, WOR)

UNIDENTIFIED. Weak pulses every 32 kHz, May 6 at 2215, traced on 15280, 15312, 15344, 15476, 15408, 15440, 15472; until 2216 when they paused. Also had a string below 15100 a few minutes earlier. Maybe something local, but never had anything like this before (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 15489-15512 approx., Apr 30 at 0421, very rapid clickery, OTH radar? Whose? Exactly same sound on 15829-15854, S9. So bandwidth about 24 kHz (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 15916.0, Apr 30 at 0423, S9 dead air with clix, yet another mystery ending in -6. Clix JBA out to 15900/15928, approx every trisecond, but not evenly spaced; counted 22 during one minute (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 17925 USB, May 4 at 0425, after finding no activity on 28, 24, 21 or 18 MHz hambands, as I am tuning further down hit one

side of 2-way in AMS = aeronautical mobile service, per Klingenuß
2022 covering all these: Guam, Alaska, Thailand, Hawaii, New York, San
Francisco; sounds Japanesish. Page 1057 of UDXF Frequency list adds:
Bolivia, Djibouti, Cocos Island, Mexico, Trinidad, Saudi Arabia,
Tunisia. That narrows it down (Glenn Hauser, OK, WOR)
